

Community Access Solutions

Gate & Access Control Solutions for Residential Communities

Serving Residential Communities

Homeowners associations & property management entities work to ensure the safety of their communities, shared amenities, and residents. For over 40 years, DSC has partnered with HOAs & property managers to design safer & more secure communities.

When Safety Matters, Think DSC.

DSC is proud to be Houston's most trusted provider of security & life safety solutions for master planned communities, gated developments, condominium associations, and townhome associations.
