

**DSC***When Safety Matters*

Protect What Matters. Simplify Maintenance and Compliance.

DSC provides ongoing protection through proactive monitoring, maintenance, and support for fire, security, and communication systems.

Every System, Fully Supported.

Fire & Life Safety Inspections

Comprehensive testing and inspection services that keep your facilities up to code. DSC ensures all devices and reporting meet local standards & compliance.

System Monitoring

24/7 monitoring for fire & intrusion systems with fast response, event logging, and detailed reporting.

Preventative Maintenance

Scheduled maintenance programs that extend equipment life, prevent downtime, and ensure every fire, security, and communication system performs at its best.

System Service & Repairs

Certified technicians respond quickly to diagnose and resolve issues across all major life safety and security platforms, keeping your systems operational and compliant.

Compliance Without Complication

Our service programs reduce downtime, prevent costly violations, and ensure readiness when it matters most. DSC's team keeps your facility compliant with evolving standards and AHJ requirements.

Confidence That Lasts

Every DSC service plan includes a single point of accountability, responsive scheduling, and transparent documentation—so your team can focus on operations, not emergencies.
