

DSC
When Safety Matters

Life Safety & Security Solutions for Texas Schools

Protecting Students, Staff & Campuses Since 1978.

DSC delivers integrated fire, security, and communication systems built for the unique demands of K-12 campuses across Texas.

All Systems. One Partner. Built for Schools.

Fire Alarm Systems

Code-compliant design, replacement, and retrofit work completed around the school calendar.

Video Surveillance

Commercial grade IP cameras, AI analytics, video management software, and secure storage solutions.

Access Control Systems

Secure entry vestibules, classroom door control, district badge systems, and lockdown support across every building.

BDA/Emergency Radio

Reliable in-building radio coverage that meets code requirements for new construction, additions, and campus renovations.

Communication Systems

Class change bells, emergency announcements, VoIP integration, and districtwide paging that reaches everywhere.

Structured Cabling

Reliable fiber and copper infrastructure for expansions, relocations, technology upgrades, and multi-building campuses.

Service That Schools Can Count On

From 24/7 emergency response to routine inspections, DSC provides consistent, districtwide support for fire, security, BDA, and communication systems. Our technicians work safely in active campus environments and deliver clear documentation that aligns with TEA and Texas Education Code requirements.
