

## Trusted Across Texas. Proven Since 1978.

For decades, DSC has delivered integrated life safety and security systems built on reliability, precision, and a commitment to doing the job right the first time.

## Our Commitment to You

When you work with DSC, you gain more than a systems provider—you gain a team that stands behind every project with accountability, expertise, and long-term support.

## Industry Leading **Life Safety & Security** for Modern Facilities

Trusted by Texas businesses since 1978 to protect people, property, and productivity.

Design • Installation • Integration • Support

# Complete Life Safety & Security Solutions - Design, Installation, Service & Support

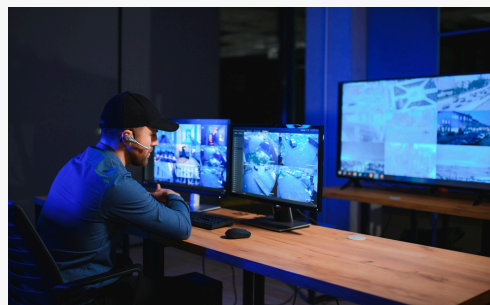

Your facilities depend on systems that protect people, property, and uptime. DSC designs and integrates life safety and security solutions that work together seamlessly — built to perform, built to last, and built for your specific environment.

## All Systems. One Partner.

### Fire & Life Safety

Reliable protection that meets code requirements - ensuring rapid response.

### Video Surveillance

Cameras, mounts, recorders and VMS cloud solutions - on-site or in the cloud.

### Access Control

Streamlined entry and credential management for secure movement throughout your facility.

### BDA/Emergency Radio

In-building radio amplification that keeps first responders connected when it matters most.

### Communication

Paging, intercom, and distributed audio solutions that keep teams connected across every facility.

### Structured Cabling

The connected backbone that supports and unifies every DSC-installed system.

## Designed for Safety. Delivered for Convenience.

You need systems that perform when it matters — and a partner who makes the process simple. DSC provides a clear path from design to inspection, so your project stays on schedule, within budget, and fully compliant with every requirement.

## Best in Class Service & Support

- 24/7 on-call support for urgent system issues.
- Certified technicians trained across fire, security, BDA, and communication systems.
- Preventive maintenance plans that can be tailored to your facility and budget.
- Routine inspections and testing to keep you compliant and avoid surprises.
- Service options for repairs, troubleshooting, and equipment replacement when needed.
