

## Trusted Across Texas. Proven Since 1978.

For decades, DSC has delivered integrated life safety and security systems built on reliability, precision, and a commitment to doing the job right the first time.

## Our Commitment to You

When you work with DSC, you gain more than a systems provider—you gain a team that stands behind every project with accountability, expertise, and long-term support.

## Reliable Service and Support for Life Safety and Security Systems

Trusted by Texas facilities since 1978 to keep fire, security, and communication systems working when it matters.

Monitoring • Inspections • Maintenance • Repairs

# Complete Support for Every Life Safety & Security System

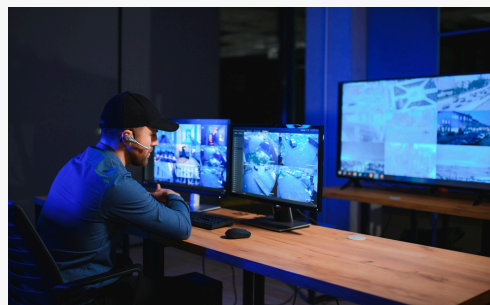

Your properties needs systems that stay compliant, stay reliable, and stay online. DSC provides full-service support for the systems already in place—helping you avoid downtime, failed inspections, and unexpected costs.

## What We Support:

### Fire & Life Safety

Reliable protection that meets code requirements - ensuring rapid response.

### Video Surveillance

Cameras, mounts, recorders and VMS cloud solutions - on-site or in the cloud.

### Access Control

Streamlined entry and credential management for secure movement throughout your facility.

### BDA/Emergency Radio

In-building radio amplification that keeps first responders connected when it matters most.

### Communication

Paging, intercom, and distributed audio solutions that keep teams connected across every facility.

### Structured Cabling

The connected backbone that supports and unifies every DSC-installed system.

# Service That Keeps Your Properties Safe and Operating Smoothly

Clear, reliable support makes managing your systems easier. DSC offers flexible programs to fit your building's needs and help you stay ahead of issues before they become problems.

## How We Can Serve You:

- **24/7 on-call response** for urgent system issues.
- **Certified technicians** trained across all major life safety and security platforms.
- **Preventive maintenance** options tailored to your building and budget.
- **Routine inspections** and testing to help you pass AHJ requirements.
- **Repairs and system troubleshooting** when problems arise.
- **Equipment replacement and upgrades** when components reach end of life.
