

**DSC**  
When Safety Matters

# Protect What Matters. Simplify Maintenance and Compliance.

DSC provides ongoing protection through proactive monitoring, maintenance, and support for fire, security, and communication systems.

## Every System, Fully Supported.

### Fire & Life Safety Inspections

Comprehensive testing and inspection services that keep your facilities up to code. DSC ensures all devices and reporting meet local standards & compliance.

### Preventative Maintenance

Scheduled maintenance programs that extend equipment life, prevent downtime, and ensure every fire, security, and communication system performs at its best.

### System Monitoring

24/7 monitoring for fire & intrusion systems with fast response, event logging, and detailed reporting.

### System Service & Repairs

Certified technicians respond quickly to diagnose and resolve issues across all major life safety and security platforms, keeping your systems operational and compliant.

## Compliance Without Complication

Our service programs reduce downtime, prevent costly violations, and ensure readiness when it matters most. DSC's team keeps your facility compliant with evolving standards and AHJ requirements.

## Confidence That Lasts

Every DSC service plan includes a single point of accountability, responsive scheduling, and transparent documentation—so your team can focus on operations, not emergencies.
